

# The Art of Mind Project

## Sensory Playgroup

10 sessions  
\$3,600

Our sensory-playgroup emphasises on personal growth and development in early education. Our multi-dimensional playgroup values the relationship between art, education and developmental psychology. It is designed to nurture children's creativity through sensory-play and to arouse their passion for learning different skills such as emotion management, social and problem-solving skills, for a better mental wellbeing.
